WELCOME HOME!

Many pets live at shelters until a family brings them home. If your family adopts a pet, here are ways to help her settle in.

- Put her food and water in the same place so she can find them.
- Give her safe, fun toys that are made for pets.
- Don't sneak up on her — she may be a little scared in her new home.
- Always be gentle. Never squeeze, pinch or pull her hair.
- Be patient. She has a lot of new things to learn.
- Follow your parents' rules for safety.
- Make sure she has a special quiet place where she feels safe to sleep.
